HOW TO INSTALL ADOBE CREATIVE CLOUD APPLICATIONS

The George Washington University School of Medicine and Health Sciences provides SMHS faculty and staff access to install the Adobe Creative Cloud Suite of applications. This includes Acrobat DC, Photoshop, Lightroom, Illustrator, InDesign, Premiere Pro, Dreamweaver, and other Adobe software applications.

SMHS faculty and staff are licensed to install the Adobe Desktop on two computers. The following are the steps to install the Adobe Desktop application on SMHS managed workstations/laptops. For non-managed workstations/laptops visit https://www.adobe.com and Sign in with your NetID@gwu.edu under “Sign in with Enterprise ID”.

Microsoft Windows 7 or 10 Managed Desktops/Laptops

Select the Software Center icon found on the taskbar.

Under Available Software place a checkmark beside the Adobe Creative Cloud Desktop icon and click INSTALL SELECTED.
For Apple Desktops/Laptops

Select “Self Service” and click on the Adobe Creative Cloud Desktop App.

This will place the following Icon on your Desktop.

Click and you will be asked to authenticate to the Adobe Cloud.
Enter your NetID@gwu.edu, no password and select “Sign in with Enterprise ID”, you’ll be prompted to enter your NetID and password at the GWU enterprise login screen.

You’ll be redirected to the Adobe Getting Started Install page.
Select “Install or update an application”.
Choose the application from the list that you wish to install.

This process can be repeated for each application that you wish to install. You will not be prompted to login after the first successful install.
